

Carrizozo Shops Will be Rebuilt.

The shops of the El Paso & Southwestern Railroad company located at Carrizozo, which were recently destroyed by fire, will be rebuilt at the same location, according to good authority.

It is said that work will be started at once on the work of replacing the burned property, and that it will be hurried to completion as soon as possible. The fire which occurred several weeks ago did a damage amounting to about \$30,000 according to the estimate furnished by General Manager Simmons at the time. The amount was fully covered by insurance.

It has not been said whether the new plans for the rebuilding will be more extensive than the former shops, or whether they will be replaced by similar structure. The round house, shops and tool house will have to be constructed anew.
